

# Ignitor<sup>®</sup> III

Ignition box performance... without the "box"!

## Features

- 5 times more spark energy than points  
...increased burn time
- Multi-spark thru the entire RPM range  
...improved combustion
- Increased spark energy  
...More Horsepower & Better Mileage
- REV limit set by user  
...accurate to +/- 50 RPM
- Replaces points or as an upgrade for Flame-Thrower Billet V8 distributors  
...easy installation
- You cannot use solid core (typically copper) spark plug wires with this product. Solid core wires do not suppress electromagnetic interference (EMT) which will interfere with electronics in your vehicle. A suppression style or spiral wound spark plug wires must be used.

Limited applications available for the following distributors:

Delco • Motorcraft • Mallory • Chrysler • Holley Gold box

Ignitor III technology will also be available in all V8 Flame-Thrower Billet distributors or as an upgrade to existing Flame-Thrower Billet distributors.
